PROFESSIONAL EXPERIENCE

FrontEnd Developer Intern, CodTech

05/2026 – 06/2026 | Visakhapatnam, India

- Delivered 4 frontend web applications, including a Quiz Platform, Real-Time Chat System, Portfolio Website, and E-Learning Platform using modern web development practices.
- Engineered multiple interactive functionalities such as real-time messaging, score analysis, client-side validation, dynamic content rendering, and responsive navigation.
- Built reusable React components and modular application structures, improving maintainability and scalability across projects.
- Utilized 5+ frontend technologies, including React, JavaScript, HTML, CSS, Bootstrap, and WebSockets to create responsive and user-focused applications.
- Ensured cross-device compatibility and accessibility through responsive design principles and modern UI/UX practices.
- Applied component-based development, asynchronous programming, API integration, and real-time communication concepts across 4 frontend applications.

PROJECTS

Real-Time Chat Application, JavaScript, WebSockets, HTML, CSS

05/2026 – 06/2026

- Architected a WebSocket-based chat platform supporting real-time bidirectional communication and live message broadcasting.
- Leveraged an event-driven communication model to facilitate seamless message exchange and user interactions.
- Crafted a responsive interface optimized for desktop, tablet, and mobile devices.

FoodMania,

01/2026 – 05/2026

Online Food Ordering & Management System | React, Spring Boot, MySQL

- Created a full-stack food ordering platform supporting 2 user roles (Customer and Admin) with secure authentication and authorization.
- Integrated 12+ functional modules, including menu browsing, cart management, order placement, order tracking, user administration, and 6+ food categories.
- Connected a React frontend with Spring Boot REST APIs to streamline data exchange across multiple application workflows.
- Established an Admin Dashboard for centralized management of food items, users, and customer orders.
- Managed persistent application data using Spring Data JPA and MySQL relational database systems.

NewsMonkey, News Aggregator Application | React, News API

11/2025 – 12/2025

- Built a React-powered news aggregation platform integrating News API to deliver real-time news content.
- Organized content across 6+ news categories through dynamic routing and reusable component architecture.
- Consumed REST APIs and asynchronous data-fetching techniques to efficiently retrieve and display news articles.
- Designed mobile-friendly layouts ensuring consistent usability across desktop, tablet, and mobile devices.

TECHNICAL SKILLS

Programming Languages — C, C++, Java, SQL

Frontend Technologies — HTML, CSS, JavaScript, React.js, Bootstrap

Backend Technologies — Spring Boot, REST APIs, MVC Architecture

Database Management — MySQL

Data Structures & Algorithms — 132+ LeetCode Problems Solved

Version Control — GitHub, Git

EDUCATION

Bachelors in Information Technology,

09/2024 – Present | Visakhapatnam, India

Anil Neerukonda Institute of Technology And Sciences

Percentage : 88.6%

CERTIFICATES

Programming in Java – NPTEL — Score : 90%

Data Structures & Algorithms Certification — ExcelR
